## Integrated Manufacturing & Oil Services Co.LLC

IMOS has been established to provide Innovative solutions to Coating, Lining and other applications required for the Oil & Gas Sector.

- ▶ IMOS is the first application and manufacturing facility of its kind in the Sultanate of Oman.
- ▶ Technically advanced Pipe Coating Facility with a Team of dedicated and experienced Pipe Coating Professionals
- ▶ State-Of-The-Art quality manufacturing and Quality facilities capable of responding to the market requirements.

## Our Products & Services

### Internal Fusion Bonded Epoxy (FBE) coating

- ▶ Facility designed to handle pipes up to 24" diameter and 13 meters in length
- ▶ Automatic plant with having full control of powder deposition, leading to a consistent coating
- ▶ Auto indexing systems allow pipes to roll through the ovens ensuring an even and consistent pipe temperature.

### Custom Coating of Fittings & Spools

- ▶ Standard Fittings such as Elbows, Tees, Reducers  
Fabricated spools of various configurations and a short lengths of straight pipe up to 24" diameter.

### Drill Pipe Internal Coating

- ▶ The coating application is required for Corrosion Protection and Hydraulic efficiency
- ▶ The Facility is able to coat both new and used pipe
- ▶ The ability to coat Drill Pipe up to 13.m in length
- ▶ Automated plant ensuring quality and consistency

### Liquid Epoxy Coating

- ▶ Liquid epoxy coating provides good flexibility and excellent impact resistance
- ▶ Significantly improved performance to high temperature cathodic disbondment

### Drill Pipe Hard Banding

- ▶ To provide wear protection on Drill Pipe and to increase service life
- ▶ Ensuring adequate hardness & substantially improved anti-wear friction reduction properties

### ROTO lining and HDPE Lining:

- ▶ Roto lining is a unique process by which a corrosion inhibiting polyethylene layer is applied inside the spools and complex fabricated tubulars
- ▶ IMOS has decades of experience in the complex Roto lining process
- ▶ The parent company of IMOS was the first in the region to manufacture polyethylene pipes used for liner application in the oil and gas sector.
- ▶ A pool of highly qualified and experienced work force.
